Salary Negotiation for Women

Gain the skills and confidence to successfully negotiate your salary and benefits.

Sales Skills for Small Business Owners

This workshop explores the issues and obstacles that you need to address to find your prospects and turn them into customers. **Commonwealth Salon**

Score Small Business Mentoring

Attend a free one-hour business mentoring session for small business owners or people considering starting a small business. Registration required at <http://scoreboston.org/KL> or call 617.565.5591.

THE COMMUNITY LEARNING CENTER CLASSROOM

Mezzanine Level, Johnson Building

617.859.2323 and computerworkshops@bpl.org

Computers for Beginners using Macs (4 Week Series) These classes will be held using computers running on MAC OS X. You'll learn the basics of the mouse and keyboard, navigating applications, searching and organizing files, and creating simple word documents. **These classes are perfect for those with little to no computer experience.**

Gmail for Beginners If you're new to email or would like to discover the many benefits of using a Gmail account, this class is for you. We will cover how to create an account, send and receive emails, attachments, and changing your password.

Google Drive 101 Google Drive offers several features to help you save important files and access them anytime for Gmail users. Learn how to store files in the cloud with Google Drive and using Google's word processor, Google Docs, to create word documents.

History of Fashion Week This workshop explores a brief history and description of Fashion Week, and it's growing importance throughout the years.

History of Salem Witch Trials The Salem Witch Trials involved many people and several towns in Massachusetts. Learn about how to search for people and places related to the trials, and other resources for further research.

Job Search & Resume Drop-in Our library staff can help you get started on your resume, give it a review, and help with feedback and tips. First come, first served.

Learn Microsoft Office with Online Courses Whether you are new to Microsoft Office or want to advance your skills, this class shows you online options for learning Microsoft software.

Learn to Type! This class shows you the basics of how to learn to type. We'll look at free online typing tutorials to help increase typing speed and accuracy.

Map Monster Mash Old maps and atlases are brimming with history, once-uncharted territories, and monsters. Discover the geography, cultural biases, and even political motivations behind these cartographic critters, and learn to navigate the Leventhal Map Center's new digital collections.

Microsoft Word: Basics Students learn the basic Microsoft Word skills needed to write a letter. We cover how to open a new document, copy and paste text, formatting fonts, manipulating margins, and saving your work.

Microsoft Word: Intermediate Jumping from skills learned in Microsoft Word: Basics, this class teaches you how to add page numbers, use page breaks, incorporate styles, and more.

Morningstar Investment Research Center

Get to know the Morningstar Investment Research Center online resource. Learn how to search for funds, conduct a screening, and download reports. §

Open Tech Lab Having trouble with your email? Need computer, tablet, e-reader, or smartphone assistance? Resume help? Other tech questions? Sign up for 30 minutes of one-on-one assistance with a library staff member by calling 617.859.2323 or email computerworkshops@bpl.org

Orientation to Your BPL Card There is so much you can do with a Boston Public Library card! Come receive an orientation to our website, learn how to search and reserve books, music, movies, locate our e-resources, and reserve museum passes. Please bring your library card with a valid PIN to class.

Plan Your Next Trip Online The internet is full of travel information. Find the best tips and websites available online to plan your next trip.

Research Paper 101 Need to write a research paper and aren't sure where to start? There are many online resources and databases you can use to write your paper, besides Google!

Save Your Pictures with Google Photos Learn how to save your photos on your Android or iOS device and access them anytime. This class also shows you how to manage, organize, and share your photos from your devices.

Tablet Orientation (3 Week Series) These classes cover the basic settings of using iPads and Android tablets, including setting up an account, taking photos, accessing the web, email, and more.

The Wonderful World of Podcasts Interested in joining the craze of listening to podcasts? This class shows you how to access these programs on a variety of devices and highlights some of the top podcasts listened to around the world.

Video Conferencing with Google Hangouts Google Hangouts allows you to participate in text, voice, or video chats, either one-on-one or in a group. Learn how to connect with friends and family using Google Hangouts.

Key:

- § Knowledge of how to use a mouse, keyboard and the internet strongly recommended.
- ‡ Basic keyboard and mouse skills are recommended.
