Mac OS X Wireless Instructions

 Click the Wireless icon in the upper right of the screen. Click <u>Turn AirPort On</u> if AirPort is off. Select the <u>BostonPublicLibrary</u> SSID from the list of available networks.

2. Click the wireless icon and select Open Network Preferences.

3. Click Advanced...

4. Select TCP/IP tab. For Configure IPv4: select Using DHCP

5. Launch Internet browser and go to www.bpl.org. Click Submit on the Splash screen.
